

Membership Reciprocity Agreement
between
Association for Women in Mathematics (AWM)
and
Canadian Applied and Industrial Mathematics Society / Société Canadienne de
Mathématiques Appliquées et Industrielles (CAIMS//SCMAI)

The Association for Women in Mathematics (AWM) and the Canadian Applied and Industrial Mathematics Society / Société Canadienne de Mathématiques Appliquées et Industrielles (CAIMS//SCMAI) agree to enter into a reciprocal membership agreement whereby individual members in one society are eligible for a discounted membership in the other.

Under this agreement:

1. Any member in good standing of AWM who wishes to join CAIMS/SCMAI will be accepted as a CAIMS/SCMAI reciprocity member upon receipt of the CAIMS/SCMAI application form and dues payment. Any member in good standing of CAIMS/SCMAI who wishes to join AWM will be accepted as a reciprocity member upon receipt of the AWM application form and dues payment.
2. The special dues rate for AWM members joining CAIMS/SCMAI under the reciprocal agreement will be 70% of the current rate for regular membership in CAIMS/SCMAI. Under this reciprocal agreement, CAIMS/SCMAI members who join AWM as a new member will be eligible for the AWM First-Year Regular Membership rate for a total of two years.
3. Reciprocity members receive all regular member services and benefits.
4. Each society shall help to promote reciprocity membership. Societies may exchange mailing lists or labels or provide a brief notice in paper or electronic mail to members. Each society shall announce the availability of the reciprocal membership in their flagship publication(s), news online, website or other appropriate media. Each society shall provide to the other a name of a contact person within their society responsible for promoting memberships.
5. Each society may request an annual report of the number of reciprocity members in the corresponding society at the end of the calendar year.
6. This agreement is in effect beginning on July 1, 2026 until terminated by one of the societies. Termination notice must be provided six months before the start of the year when it takes effect in order to provide an orderly transition.

7. The two societies agree to explore possible extensions of the present agreement to additional forms of collaboration, such as the organization of joint programs, student activities, publications or prizes.
